

## Why our Members choose the Clarington Board of Trade!

"...In today's competitive marketplace, every business owner not only needs to run their business to their best potential, they also need to become a part of the community. The CBOT is one of many channels to help a business owner achieve that. We are proud to be members and glad to be a part of the Clarington business community."

**Mike Gazo, Owner  
Perfect Party Place, Bowmanville**

"Having recently located our manufacturing business in Bowmanville, we have been just delighted to participate in the many programs and activities offered and organized by CBOT... we can attest to the fact that the CBOT is a welcome and meaningful membership choice for everyone in the Clarington Business community."

**Jimmy Liu, General Manager  
InnerEco Environmental, Bowmanville**

"...CBOT gives us a resource when we expand, (Not just the CBOT office staff but a membership of fellow business owners that we can ask for advice)... My friends who don't own businesses don't understand what we go through. CBOT friends give us a shoulder to cry on, an ear to wine about payroll to, or an elbow to celebrate success with... We use the discounts and save cash... CBOT tries new things. We have been a member of other Chambers and they seem to be driven by big business. The only thing that is big in our company is my waistline... the number 1 reason to be a member of the Clarington Board of Trade.....It generates business!!!!"

**Kevin Anyan, Owner  
Kings Court Catering, Bowmanville**

"...CBOT has provided great networking opportunities for us to meet the people behind the products in our community. The organization has also offered affordable educational seminars to update business owners on topics & keep things fresh. If you think that you've got things right, you've already lost! The networking & seminars alone make the CBOT Membership Fee a bargain."

**Fred & Sandy Archibald, Owners  
Archibalds Orchards & Estate Winery,  
Bowmanville**

"Amongst the benefits we have accessed through the Board is an excellent Benefit Program for our employees. Besides the very favorable rates for the various Plans, is the representative who helps you plan and make changes to suit your business activities."

**Francine Nesbitt, Owner  
Safe & Sound Manufacturing,  
Bowmanville**
