

Ironworker

Be the **GENERATION** to help build a **BRIGHTER TOMORROW!**

What is an Ironworker ?

An Ironworker is involved in erecting residential, commercial, institutional and industrial buildings as well as other large structures such as bridges, dams and stadiums. The individual sets up the framework of a building by positioning steel girders or other structural elements and then bolting them into place.

Where can an Ironworker work?

- Construction
- Energy
- Manufacturing

Job Sites:

Engineering Construction | Heavy Industrial Construction | Institutional and Commercial Construction
